REMARKS

Claims 1-56 are pending in the present application and have been respectfully subjected to a restriction requirement.

This election is being made with traverse and without prejudice to Applicant's rights with respect to any of the claims, including the right to file divisional applications thereon.

Applicants hereby provisionally elect Formula 11 as a single carbazole species, and Formula 4-1 or 4-2 as a single triarylamine species.

In Formula 11, R₁₀₀₁ through R₁₀₁₃ independently represent an alkyl group, which is supported by description on page 103, lines 19 to 23, and page 51, lines 14 to 16 of the Specification. In Formula 4-1 or 4-2, Ar₈₀₁ through Ar₈₀₃ independently represent a substituted or unsubstituted aryl group, which is supported by description on page 58, lines 7 through 12 of the Specification, and R₈₀₁ through R₈₂₇ independently represent an alkyl group, which is supported by description on page 58, lines 7 through 14, page 62, lines 17 to 19, and page 51, lines 14 to 16 of the Specification.

A listing of all claims readable thereon is as follows:

Claims 1-13, claim 18, claim 21, claim 27, claim 29, claims 35-47, and claims 52-56.

Applicants also note that no "serious burden" is present in examining the small number of claims 14-17, 19-20, 22-26, 28, 30-34 and 48-51 as well, and cite the following:

803 Restriction - When Proper

Under the statute an application may properly be required to be restricted to one of two or more claimed inventions only if they are able to support separate patents and they are either independent (MPEP § 806.04 - § 806.04(I)) or distinct (MPEP § 806.05 - § 806.05(I)).

If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions.

The foregoing is fully responsive to the Office Action.

If there are any charges with respect to this amendment, or otherwise, please charge

10/804,788
